Mrs A. W. George

Mayville N. Y. Dear Madam

The man Fleisher called today and informed me that he had been unable to raise the money to complete the contract for the land. He had a horse and other stock that he had expected to sell but had so far failed to do so, as no one had the money to pay down but could sell on time. He lives on the Wakefield farm and is to work it this season would rent your sisters place for the summer and pay $\frac{1}{2}$ the rent down and the balance in the latter part of the season if he could have it at a reasonable price, and would expect to be able to make the purchase in the fall. I write this at once as it is time that some disposition should be made of it at once for the season, As times are and as Fleisher is situated I should not expect great things from him by way of purchase but think him honest ~~and~~ and had times for money been usually good he must possibly raised the pay. I would be at your service in any way that I can and will try and be ready to assist in any things that may be suggested in the matter. —

Yours &c M. W. Wright
