Mrs H. W. Fougere Dear Madam

In accordance with your wish of the 11th I saw Mr Brown and made arrangements with him for the place for the coming year substantially as you suggested found him willing to take it this year as he did before and if he should not meet with any serious misfortune would purchase it next year on the same terms as was talked of before - I am quite disposed to think him a safe person to deal with.

I saw Mr Whipple yesterday and he wished me to say to the judge that the land sale of the Estate was successful this time, and was better than he had expected.

Am pained to learn of the Judges affliction and trust his great courage and faith will sustain him and restore him once more to active life and usefulness. Please tell him I find myself living more in the past than the future, which indicates "Old age".

My regards to all
Please let me hear from you often

M. W. Wright
