BUFFALO, April 28th, 1890. 18

Hon. A. W. Tourgee:

My Dear Sir,-

At the request of several members of the Faculty of the Buffalo Law School, I write you to ask if you can deliver the Annual Address at the graduation of our law class, on the 29th of May. The occasion will not be of a sufficiently formal character to require anything from you which would involve very much preparation; but I believe that you have, stored away, in your mind, within easy reach, sufficient to make a very interesting address upon almost any subject that you might select as being of interest to the graduating class. We have been a little negligent in not sending the invitation earlier; but it is one of those cases, where there were several cooks, and the matter was not attended to at the time it should have been. We earnestly hope that you may be able to consent to be with us on that occasion. Will you kindly let me know, at as early a date as possible, and oblige,

Yours very sincerely,

Le Roy Parker.
