My dear Husband,
As I am very busy making my dress, and I don't know of any news to write you, I will only send a note to day. There was no Mayville mail this morning. - so I suppose the chapter still hangs fire. Poor fellow! You certainly have had the horrors over this story. -

It is cloudy, - looks like rain, - as usual. I return the letter you sent. It should have encouraged you a little. What do you think of Clarkson's speech last night in Boston? Seems the country is getting some truths from others who take the cue from you.
Love
E.
