Dear Mrs Tourgee

I acknowledge
your kind note recei-
-ved yesterday: regret
to know of the judge's
illness but trust that
with your good care
he will soon be restored
to his usual health.

The doctor told me
of the probability of
your taking a room
in October but since

taking this house I
and I shall have but
few rooms to rent need-
-ing a certain number
for my family and
also having promised
several of my friends
to accommodate them
with rooms when I take
possession of the house
early in September; I
understand that some
of the tenants who had
rooms last year and
are now gone away
for their summer vaca-
-tion intended to return

and had their rooms to assist me in my
reserved for that purpose new-enterprise and
but I need those rooms I shall still continue
myself and cannot my classes in French
accommodate them and music as before
and will ask the Doctor and hope I can see
to notify them to proceed in my new
vacate as soon as possible undertaking.

pen to my taking I suppose your
possession for I shall place looks beautiful
have but very little the garden and grounds
time to prepare my must have much im-
house for occupancy proved by age. give
I have adopted one my kind regards to
of my nieces, an orphan the Judge and with
who is to be here ~~soon~~ remain love to Lodie I

very sincerely yours
Abel Cuthbert.
