Hon. A. N. Torrey

Mayville N.Y.

Please excuse me for troubling you, but I am anxious to see a letter by Gen. Wm. Irvine to Gen. Washington with reference to some matters in our own county during & before the Revolutionary war. I think it is in Sparks's History & Annals of Washington, I do not find it in town and it occurred to me that you might know it. Will you kindly drop me a line whether you know it, - if you have, with your permission I will call.

One other thing; have you any history that will give a full account of Col. Daniel Brodhead's expedition against the Indians of the Upper Allegheny in 1779. There are some facts in connection with that expedition that I wish to obtain. I find nothing here that will furnish what I need.

Respy Yours
