This letter is simply a notification that the claim has been allowed by the accounting officers of the Treasury, and that the Certificate ~~has been~~ sent to the Paymaster-General for payment, but, as this is only one of several thousand similar claims now awaiting payment, it is impossible to say how soon it can be paid. They are being paid in numerical order as rapidly as possible, at the rate of seventy-five to one hundred per day.

This claim will receive the earliest attention practicable and a check for the amount payable to you will be duly forwarded to you. Further correspondence will only delay the payment.

Respectfully yours,

*J. A. Patterson,*

Auditor.
