The Hon. Albion W. Tourges,

My dear Sir:

The writer remembers a very pleasant conversation with you about two or three years ago in Buffalo concerning the negro question. I am still interested in this subject and at our next missionary concert in Lafayette St. Church which occurs in May. I have the subject in charge.

I remember your stating that your wife was deeply interested in points in the south and if either you or your wife can give me the names of parties there with whom I may correspond and obtain practical information on the subject of educational work among the Blacks I shall be very grateful.

Shall also consider it a favor if you can afford time and give me some thoughts of your own upon a question which I know is of deep interest to you and upon which you are so fully posted and able speak authoritatively. Any literature which you may suggest that will give the latest information on the subject will also be carefully perused.

Trusting that I am not encroaching too much upon your time and basing the granting of these favors upon our mutual interest in a subject of so great importance and magnitude to us all, I am,

Yours very sincerely,
