Dear Sir:-

Replying to your letter of Feb. 23rd relative to the transportation that you desire over our line. If you will advise me definitely what you want I will take pleasure in sending it to you. I notice that you say you will probably wish to make some detours over certain parts of the country traversed by our line. I desire to know just exactly what this territory is so that I may arrange the necessary mileage or time passes.

Yours truly,

W.C.H.
