Judge Albert W. Tougee, -

Dear Sir:

In the last issue of the Allegany County Republican I read your letter and am interested in your reference to the society of which you are president.

In your efforts to secure equal rights to all do you advocate the right of suffrage for women? In that right our brightest, active brained women are both nominally and actually below the negroes.

Yours very respectfully,

Helen C. Peckham

Pres. First Political Equality Club
of Jamestown.
