OFFICE OF
THE PRESIDENT.

Manhattan, Kansas, March 30 1892

Mr A. W. Bourge.

My dear Sir:

I am chairman of a Com. to report at the next National Encampment of the G. A. R. on "Teaching Patriotism". I would be glad to get suggestions from you. Can you tell me the quickest way to get accurate information as to character of text books of the South, & elsewhere, which inculcate lessons that ~~are~~ tend to beget love of country or "the opposite"? I have read a number of the "Bystander" letters. I have seen a subscriber to the National Citizens Rights Assoc. & sympathize with its work & have "Liberty Worth Preserving".

I would be glad if you would
tell me if any of your own writings
would give special help in
my work. It seems to me the
Grand Army organization ought to
try to leave some papers on our
time besides the war record & the
pension business. Any help you
can render will be greatly
appreciated.

Sincerely yours
D. Mulner.
