

6161

Her purpose was to do twelve of these with the idea of their being used both for advertising ^{and membership} for a year advertising in magazines, and one each month and also, if the publisher desired, as an illustrated catalogue for the World's Fair next year. For this purpose sketches and text were both copyrighted. Being employed to illustrate a volume in course of preparation for the Alcherson, Tofelka and Santa Fe Railroad, she left the set unfinished. She is now in California but thinks she will have time to finish them within two or three months, if desired.

She is willing to dispose of the six already complete or of the ~~complete~~ whole list as shown by the table of contents on the following terms:

The six completed pages ^{files}	\$ 350.00
The whole set of 12	600.00

Exclusive right secured by transfer of copyright.
