

2 April '92

Dear Judge - I have been
going away from home
twice since receiving your
letter. As to the leaflet, I
shall have to make an estimate
on some definite size, of
course & for ordinary type
for reading paper. That a
2 page leaflet on sheet $10\frac{1}{2} \times 14$
inches, four columns a page,
the first 5 thousand would cost
say \$400 - each additional
thousand \$225 - nice paper &
printing.

Your pkg of documents
sent also Allegany Republican
edited by Redheaded Raymond
as he is familiarly named.
I will be glad to give it all over
much as it goes for Blaine.

I will give this matter
serious attention next week.
I copied article you sent
on my last paper a first page
intended to have followed
it up on inside, but was
called away.

It does look as
though properly managed
there might be something
in the movement financially
as well as politically
I hope if there is any
profit in it you may
secure a large share of it.

As always
Yours

A. B. Russell
