Dear Sir:

I learn through one of the San Francisco papers that you are on the coast looking up some matters of railway history for the purposes of the World's Fair. It occurs to me that you might be glad to know that through the generosity of Mr. Timothy Hopkins, until recently Treasurer of the Southern Pacific Railroad, we have received his collection of railway books, numbering about a thousand volumes and as many pamphlets. We shall be glad to make the collection accessible to you any time you may choose to come down to the University.

Very truly yours,

E. H. Woodruff
Librarian
