tutes at at any other points wanted.

## THE CHLORIDE OF GOLD CURE CO'S. CATECHISM:

Is Chronic Inebriety or Drunkenness and Morphine Disease merely a chronic habit, or a firmly seated disease?

It is after a period of time, a CHRONIC DISEASED CONDITION OF THE SYSTEM, often as little under control of the mind and will-power as any other disease, but as easily controlled by medical treatment as other diseases.

Can a habitual drinker or morphine eater be cured of the habit, after long standing?

Yes, they can be cured speedily, safely and permanently by the Bourbon, Ind., Institute for the small sum of \$25. Boys of tender age and the oldest man safely treated.

Is their treatment for cures reliable and advisable?

YES, AS PROVEN BY HUNDREDS AND HUNDREDS OF CURES, DATING FOR OVER TWENTY YEARS PAST.

Is their treatment for cures dangerous or painful?

No, but by their original and scientific methods, not a single failure to cure is recorded; NOT HAS A SINGLE PATIENT BEEN INJURED IN THE LEAST BY THEIR TREATMENT AND NOT A SINGLE PATIENT MADE TEMPORARILY OR PERMANENTLY CRAZY OR IDIOTIC as so often found in similar institutes.

The TOBACCO HABIT is also readily and cheaply cured by HOME TREATMENT.

How long a time is required to effect a positive cure of a whiskey or morphine habit case?

ABOUT THREE WEEKS, as a usual thing; save very frightfully bad cases, a few days longer. TOBACCO HABIT CASES require about a week for a cure. For tobacco habit cases, HOME TREATMENT can be taken alone at a few shillings cost.

Can a patient under treatment do and eat what he chooses and drink spirituous liquors at will?

Yes, he is not restricted as to diet, nor drinks at all, at any time during treatment. The Institute furnishes patients all necessary drinks FREE TO ALL.

CAN A PATIENT BE TREATED PRIVATELY and unknown to other patients and outsiders?

Yes, if so desired—none being aware of the fact of treatment, as scores have been so cured, privately.

Can a patient perform mental or physical labor whilst taking treatment?

Yes, he is not at all restricted as to any and all business or work whilst under treatment.

IS A PATIENT DEPRIVED OF HIS LIBERTY by confinement?

Never in THE CHLORIDE OF GOLD CURE COMPANY. Is he strapped down to his bed, to prevent injury to himself or others, as we often hear of as practiced in some other similar institutes, in controlling their crazed patients, made crazy by their so-called treatment.

What recreations and amusements can patients expect at the Bourbon Institute?

Any and all amusements, both physical and mental that can be engaged in any where, by any one.

Are patients boarded in the Institute?

No, but can select pleasant hotels or private houses, or in private families as desired, at \$3.50 PER WEEK, with all the comforts of home obtained.

What kind of a town is Bourbon?

The pleasantest, quietest, busiest, healthiest place in the State, and all patients are delighted with it.

Are the people of Bourbon friendly and helpful to stranger patients tarrying in that city for treatment?

NEVER WERE A PEOPLE MORE GENEROUS, CHARITABLY DISPOSED, OPEN-HEARTED, WHOLE-SOULED, and as sociably inclined toward patients, than are Bourbon citizens.

Are patients ostracised, sneered at or looked down upon by the citizens of Bourbon?

No, on the contrary the patients are all very highly honored and every possible encouragement extended them by all the good people, for their efforts in seeking a cure.

Will any and every one be admitted for treatment at the Institute, and on what terms.

Yes, except he be afflicted with an infectious or contagious disease. When so afflicted he of course would be refused admission; then, only.

Term \$25—payable when beginning treatment,

**\$25.00 GUARANTEES A PERMANENT CURE  
Of The WHISKEY or MORPHINE HABIT,**

—BY—

**The Chloride of Gold Cure Co.,**

**BOURBON, INDIANA,**

With Many Branch Institutes Elsewhere.

Why This Cure for Inebriety or Whiskey or Morphine Habits is Superior to All Other Treatments Practiced.

Read carefully and contrast unprejudicially with other institute treatments.

- 1st.—Because it is certainly **FAR SAFER, PHYSICALLY AND MENTALLY.**
- 2nd.—Because the Cure is far superior and easier to take.
- 3rd.—Because it is **FAR MORE CERTAIN**—never a failure where orders are obeyed.
- 4th.—Because it is a far more permanent cure; never a relapse.
- 5th.—Because it is less disagreeable every way to take.
- 6th.—Because it is more convenient and pleasant.
- 7th.—Because it **NEVER TEMPORARILY OR PERMANENTLY CRAZES THE PATIENT.**
- 8th.—Because it does not interfere with business or pleasure of any kind; patients following ordinary pursuits during treatment.
- 9th.—Because it invigorates the intellect from the first.
- 10th.—Because it greatly strengthens the nervous system.
- 11th.—Because it purifies the blood of all disease.
- 12th.—Because it entirely renovates all the vital organs.
- 13th.—Because it **HAS NOT FAILED TO CURE** in hundreds of cases treated where directions are obeyed.
- 14th.—Because it makes a new physical and mental man of all taking this treatment.

**CAN ALL THIS BE SAID OF THE RESULTS OF THE TREATMENTS GIVEN BY ANY OTHER INSTITUTE IN THE LAND? FIDALLY: the closest investigation is challenged, and a free, full and searching comparison of this treatment with that of any and all other treatments, and all the above claims will be conclusively proven to be true, beyond peradventure.**

And best of all it is the **VERY OLDEST and MOST SCIENTIFIC TREATMENT PRACTICED**, and **COSTS THE PATIENT ONLY ABOUT ONE-FOURTH THE MONEY** demanded by any other institute.

**FREELY REFER TO ANY OF BOURBON'S BUSINESS MEN OR MINISTERS FOR WHAT IT HAS DONE, AND IS CONSTANTLY DOING FOR HUMANITY.**

**A. C. MATCHETTE, M. D.,**      **S. FRANCE, M. D.,**  
Secretary and Treasurer.      President.

**P. S.** Why pay from \$75.00 to \$150.00 for a cure for the Whiskey or Morphine Habit, when a positive guarantee of a permanent cure of your case will be given you for only **\$25.00?**
