

No people will long exist free. That arrogates to themselves rights, freedom & liberty they are not willing to accord other citizens.

A White woman married a colored man, and a very good dame asked her why she done it? She replied that she had sympathy for the race & wanted to improve it. That she had not done half as bad as one of her sisters. She had married these Irishmen & had not found a worthy man among them. Their ^{the Irish} idea of liberty is for themselves but not for other folks. The prejudice of the living age is apt to humble down to the approval and disapproval of actions which by favoring us we are wont to look upon with complacency and finally (as the poet says) embrace. It has come to be a matter of course to turn, and be manipulated to show desired Democratic virtues all over the Dotted South. Let Hodge Patterson Tammany, or when ever Democracy is in control - Election a howling roaring pace, with an end up of changing the other party. This is France, Hodge like the boy told his mother in a sermon - Call her Harlot first & then have the assurance of the only one of the rail, precedent, usage, & should be shamefully organized to compass partisan success. In fact, you have such matters of this kind play out in the violation of the rights of the humblest citizen, they are in violation of the liberty of all & it is a back up now get them all, honestly if you can. Finally if you must not get them all, fair or foul.
