A. W. Younger
Sir

I have read with interest your Notes in the Inter Ocean, especially those in behalf of Justice to the oppressed citizen, you are doing a noble work in arousing the Nation from its apathy. But I vainly looked for some word of encouragement for the more than half of the people, I do not think we can claim the title Citizen, who are classed in the Government

as Females, we, to be sure, have
some rights, as one of our noted
lecturers remarked, viz the right
to be tried and convicted by a
jury, not of our peers, the right
to be hung, the right to be
taxed without representation,
nevertheless we feel with deep
chagrin the degradation of
our position, complete and
absolute slavery except in
glorious Wyoming. While
waging your fight for
rights and justice, cannot
you speak a good word for
those of us who are so completely
disfranchised? and

Greatly Oblige
Lizzie Thurman.
