Hon Albion W. George,
Greenville, N.Y.

My dear Sir:

As it is highly important that, if possible, I set out on my return to South America not later than the first week in July approaching, and as I would like to put the ms. of which I have heretofore written you - into the hands of a publisher before leaving this country

(provided it shall seem
worth using), I take
the liberty of again encroach-
ing upon your friendship
as far as to ask you
whether from your expe-
rience you could make
me any suggestions that
may be helpful to me in
that matter with the object
of economizing time?

Wishing to be kindly
remembered to Mrs. Gougee

I remain

Yours sincerely

E. James M^r. C. Clemons,
