Comrade

I have been talking to the "colored" folks about writing to you to know. If practicable - how much would it cost. To print (say 5000) - copies of - (say 25) of your "Boys stories Vols" - in - "folder" form (or any convenient form) - And - I believe I can collect from - (the colored folks) any amount of money - (from $100 - up to $500). And I would take delight - in drilling them - up to the point of understanding - some of the - vital truths your conversation enunciate. (that - is (by the way) about the only - republican matter I read (or hear) - nowadays from - any where - Finally - I want - more of such reading matter - for the people - here (and all over the Late Southern "Unpleasantness" - I am a native Texan - 50 years old (6th of June 1892 - My Father a Native of Shrewsbury Mass - Mother Stonington Conn - I retain (like my Parents) - The New England traits - of - character and especially - abolition (of slavery) - stalwart - "306" - sincere and Grant - parties - and have ever - and will ever - develope - and maintain them. in Texas.

If – you can spare time – to have this – "Bystanders Note" (collection) printed as aforesaid – I can assume you the money – Or if you cannot – and will permit me to. I can have them printed here. from – a few copies I have – At all events I am with you – in the "campaign" – and hope to live – and help – to see the day when – we pure white trash – as well as the colored folks – will – know – and have the manliness to assert – our freedom – God bless you –

Yours in F. C. and L.
