Judge Albion V. George,
Mayville, N. J.

Kind Sir,

Yours received a long
time ago. The letter was more than I could ask.

I think I shall have the courage to send
the manuscript, without a reply to this, only
waiting to be sure you have time to tell me
not to send it, in case comes from Henry.

I have perfect confidence in your judgment -
I know myself it is true. The question of ^{its} truth
presented in such a manner as will make it
worth while for people to read; it seems so
very manifest beside your writings.

There are so many classes, if it could do
for any class, to arouse them to a sense of what
we have to contend with. I meant it more for
religious than political.

I send \$5.00 and stamps to return the writing
if rejected. The five dollars is not to pay you

for what time you may desire. I could not
ask you to look at it for less than you can make
a charge for your time and advice

God bless you in your work

Yours in Christian sympathy

G. B. Thompson

The money \$5⁰⁰ will
be in the manuscript
package by express.
