

Marcus Ga. July 2-1892.

Judge A. M. Tourgu.  
Magnolia, N. Y.

Honored & Dear Sir:-  
In the "Bystander Notes" in Inter Ocean  
of Apr. 12. you speak of "a conspiracy  
of colored men at the south, & a group  
of students at the north\*\* meeting one  
evening in the week & study the history  
of liberty," and add "There ought to be a  
professorship of that sort in every col-  
lege in the land." I believe it. And  
I am glad to say that "The University of  
the North West," a new institution  
located at Sioux City, Ia. & in suc-  
cessful operation for two years, has  
already contemplated some such profes-  
sorship. If we had means & endow such  
a chair, I think it would be done.

Could not you, for yourself, or  
in connection with some friends  
whom you might influence, endow  
& name such a professorship in  
this great & glorious state, & in this  
one of the most needy & hopeful  
schools of our country?

I am deeply interested in the school  
& deeply interested in the noble  
heroic & patriotic work you are  
doing "for God & home & native  
land" God bless & prosper you.

Yours Very Respectfully  
Thos E. Curtis.
