Judge A. N. Young;

Your very welcome letter received. Many thanks for your congratulations. I feel more reassured on its account, when I can have the approbation of one who has done so much for the race; one to whom, more than all others is the credit due for awaking the sluggish consciences of the great M. S. Church and the party of great moral ideas.

I do not know how it all may end, but I am content to do my best for the race.

Respectfully yours

P. S. I wish to get it before the country to the end that colored men

or the negro race rather, may  
be vindicated of the foul  
charge they are fastening up-  
on <sup>or any other white journal</sup> him. Will the Inter-Ocean  
do that much to delighten the  
public?
