The Hon. A. W. Fougie.

My dear Sir,

Your kind  
favour of the 24<sup>th</sup> ult. sent  
to Whiteside. is late in  
reaching me but it is none  
the less welcome. I had  
been thinking that I would  
apply to you for some of  
those pamphlets. for I believe  
that such are the things  
which will set men to  
thinking about the in-  
justice which has been  
& is still done to our  
fellow citizens of the Colored  
race. We need our attention  
called to these cruelties. in  
order to realize the great  
danger which threaten the

Republic - This morning's paper brings before us another instance of lynching & the despatch itself shows its sympathy with the injustice & approves.

Last Sunday - the day before the Anniversary gave me an opportunity of bringing before our people this as one of the crying evils of the day.

I am glad some notice of it appeared in the platform of the Minneapolis Convention. I would have been glad to see it still stronger.

If not too much I would like about fifty of the books.

I am

Most truly yours
