As to completing the "Gardner's  
Hall, many new turns of Suptent  
Enigmas have since occurred to  
me & novel explanations of them  
can be there suggested; I. 30,

"In the book of H. they are written  
manuscript as given to an average"  
"The eye is the light of the body"  
etc. etc. I have also thought  
of making it a sequel to  
Belcher's "Chemical Basis"  
which could easily be done  
by suppressing the "Gardner"  
to be Belcher's book & the

here per treatment.

You have wrote me yr  
opinion of

<sup>42</sup>  
"The Lawyers' Hall,"  
which I sent you per Clarke  
2 yrs. ago - in a note state -  
intending with yr. help or  
suggestion to finish it. Since  
then I have found no leisure  
for literary work, & so, have  
not written you about it.

Hoping to hear from you  
soon, I remain

Sincerely yours
