Dear Sir

I have long been a reader of the Bystanders notes and have derived therefrom much pleasure and profit

I believe that if the Bystanders notes were read in every household in the Union they would constitute the best campaign document ever issued

unfortunately but few people comparatively, read a daily paper and the class who do not read a daily need the most enlightenment

Will these articles ever be published in book or pamphlet form This letter is written chiefly to obtain this information, I went to a good deal of trouble to clip the Gira letters while they were being published and paste them in a scrap book only to learn later when the book was published that it was unnecessary labor I trust the Bystanders notes will be published in book form they contain too much sound logic and honest patriotism to be lost sight of in the columns of a newspaper

Respectfully Yours
