Judge Albion W. Tourgee  
Mayville N.Y.

My dear Sir:

I have been a constant reader of your "Bystanders Notes, and must say that to me, your letters are the most interesting newspaper literature that comes under my notice.

I tried very hard to get time to call on you during the work of the Minneapolis Convention, but failed for lack of time. Very much regret it.

Please find inclosed a copy of circular just issued. If you find time please read. You may readily catch the tenor of our proposed end. As a race we value more to Albion W. Tourgee, than to any man living. The race fully appreciates your services. A letter from you will always be very gladly received. I give you a special invitation to attend our Indianapolis Convention.

Truly & ever yours - Geo. E. Taylor
