

Gentlemen: Will you kindly convey to the author of "A Spinner's Leaflets," my warmest thanks for the pleasure derived from its perusal.

A novel full of daintier conceits or more expeditiously realistic in its delineation of the commonest and therefore the best American life, it would be hard to find. The author has conferred a blessing on all lovers of good literature who believe that good is true as well as evil: and worthy of depiction.

Sincerely

Wm. D. Hoagland
