Dear Madame

I must ask you
to accept our united warm
thanks for the beautiful
photograph which reached
me last week. We are
all delighted with it &
my three photographs
ever think it beautiful.
We are all surprised
that the author of all

these interesting works of our noblest women
who has passed through war. I have already
so much, should still look after of the basket
so young and I feel ready but have asked
happy to think that in Miss Sturge to make
all human probabilities are as the special
there is a long life still kind, which are very
before him. I shall use. My best hope
frame the photograph to send some photographs
to correspond with one in course of time.
of the families of Corliss. If at any time any
to hang by it; she is a number of your family

should be in England
I hope we may meet
and that you will be
quite sure how glad
we shall be to give them
a welcome. We have
very pretty scenery here
and it is always a pleasure
to my boys to act as
guides to the strangers
who visit us.

I remain, dear Madam
with hearty thanks
very sincerely yrs.
(Miss Anne Skepken).
