My dear Sir

I have read most of  
"Preston's notes" that have been  
published in the Anti-Slavery - but  
I have never read one that expressed  
more fully my feelings as an American  
and a life long Republican - as the  
"Notes" in the Anti-Slavery of the 11<sup>th</sup>

How a Republican  
President, elected to represent Republic  
in a noble (whom Oath of Office, binds  
him to look after, and protect, the  
personal interests of All American  
Citizens, could recommend for the  
same bench - a stated right  
reason Democrat, is more than a  
siding of Ben Wade Republicans can  
decide -

Yours Truly
