Albion W. Touque Esq.  
Dear Sir

I have many times read and admired "A Bystanders Notes" And the horrible act of the so called mob in Paris Texas has aroused me.

Is there any company of men political or otherwise with which I can make our Note, whose main principle is Equality and Justice. Is there anything I can do to help make my country truly the home of the free and the brave. I dont want to kill or torture those Paris citizens but I do want

to see them and the entire South  
ought to see that the United  
States are far more glorious  
and than any State from  
Oregon to Maine. And I would  
contribute my energies and my  
money to see the guilty parties  
brought to punishment. But  
my experience in travelling  
through the South convinces  
me that you would have  
to punish the entire South in  
order to stop such outrages.  
How can the thing be stopped?  
And what can I do?

respectfully yours

N. Bowditch Ingersoll
