Dear General, I will excuse  
myself by saying I have never  
read anything but a paper  
now. Have taken a paper -  
I care for fourteen years.  
Have always lived in the  
country as a reader of the  
local News of Albany  
and hated every word  
that was in the paper. One was  
killed and would have been  
any other day. You the  
only one left home and not  
yet there. This with you  
will be sufficient excuse  
for a little kindly criticism.

In the Inter-Cession of F. O. I. I. say many of the articles  
you say 70 centuries and a ... true but nothing  
... more of the ...

... country. This odd number  
... but do not  
... to two evils  
... judge I don't think  
... marriage  
... would sanc-  
... the race,  
... the two evils, the

... people, I've  
... the Inter-Cession

... governing the Country when ... If this was ... my

... have written this

but the Country north or  
south cannot be made to  
see through your glasses in  
regard to the Colored Man  
from a sincere  
observer
