

CHARLES J. GOOCH,
PATENT ATTORNEY.

WASHINGTON, D. C.

Washington D.C.
10th Dec 1893

Judge A. W. Tourgée
Everett House, New York City

Dear Sir, I have your favor of the 8th inst. I
will have new drawing made to comply with
your criticism and will change the
specification a little to conform thereto.
If the compressible tire is of thin metal
would there be danger of the rivet connection
between it and the spring tearing out in
use under strain?

I will prepare the foreign applications.
are they to be (the patents) to be for the benefit
of Mrs. Kilbourne? Let me know

Truly yours,

Charles Gooch

How about your 'Ship' Propeller &c?
