My Dear
Sir, yours with
the description of
the Paris horror is rec^d.
What a horror! No

Inhuman barages ever
beat that in inhuman-
arity. What a terrible
revelation these people
are making, yes.

I am humiliated
to say that the Inter-
ocean is losing its
backbone. It is in
bar - what on earth
does it want to please
Cleveland so much
for - I can't be fooled
by Cleveland. I

know that - he is the
contraindication. I hope -
rising. Yes. And
and I will present
the type of image
I might see years
to fight the process.
I shall leave
for the rest - the
last of this month.
yours truly
DeWitt
