Dear Miss Conyde

I am sending you  
a set of photographs taken  
in the neighborhood  
which I hope you will  
accept -

I can see how much  
have thought long ago  
that I had forgotten my  
promise, but you will  
see how much taken  
up with professional  
work, & how disappointed  
the poor thing was made

Photography -

Very sorry to learn that  
the price was somewhat  
excessive, but I had nothing  
to do except the regular  
price in this place. Since  
hearing from you however  
I have made inquiries at  
San Diego & learned  
that 25¢ is the usual  
price, so that in the  
future that must be paid  
for any that are required.  
Besides I could learn  
nothing about, but  
probably 35¢ would be

about right -  
of course in this place I  
must abide by the usual  
Custom -  
The abundance of rain which  
has fallen makes California  
show up in perfection,  
the usual brown tuckering  
totally obliterated in  
a view of a rich green -  
The Mission is about 5  
miles distant & colonized  
by a small army of monks,  
many of whom are said  
to be coming from  
Mexico - The adobe  
& some hundred people  
in the old place will

don't you  
 for what the  
 Semanthe  
 to looking  
 lovely  
 it was busy  
 when the  
 we have them  
 of the house  
 on the hill  
 had time  
 in a built  
 built upon  
 at what  
 some than  
 a nice  
 place to  
 home, but  
 a new  
 matter  
 H.J.

and a thing, pretty, highly -  
 when they were quite a  
 more in property, nice  
 location & amongst others,  
 the same place on the  
 top of the hill being  
 sold -

If some nice people will  
 come in & join as a little  
 society we shall welcome  
 them heartily -

Mr. Rogman writes with  
 his in kind regards, &  
 hopes that we shall see  
 you again at Neauville.

Yours very truly  
 G. A. Rogman
