Dear Sir

Your note received, also papers both last week and this and I thank you for so fully & practically answering my inquiry as to papers edited & published by colored men, & for the papers.

I am glad to learn that there are so many of them, and as good as they are and intend to take some of them soon

It amazes & grieves me to learn from a late paper that a mob of 500 negroes lynched a man of their own race at or near Nitta Yuma Miss, a few days ago.

What a fearful thing is this to see our victims - the victims of our cruel white race following in so many ways our wicked example.

This seems to me discouraging indeed, it adds so much to the difficulty

Yours for the right

Thomas Green
