Albion W. Tourjée,  
Mayville, N. Y.

Dear Sir:

Having read an article of yours on the Blair bill, published some two or three years, I desire to have any further arguments in favor of Government <sup>aid</sup> for Colored schools. I am introducing the Four Kindergartens among them, being myself a Northern woman. I am preparing a thesis on that subject for the consideration of the Dept. Congress of Kindergarten Instruction at the World's Fair.

If these four Kindergartens could be introduced among this people, the next generation would be a different people.

The urgency of the case, shall be  
my only excuse for troubling  
you.

Very truly Yours

(Miss) Elizabeth H Baker
