

Franklin Ind 3.-24.-1893

Mr A. W. Tougee

as I am a reader of the
Inter Ocean and of course
a Republican I always
read The Bystander with in-
terest for I approve of the
fight you are making for the
colored man's right I think
the affair at Paris Texas
was a disgrace not only to
the United States but to
the civilized world and
the appointment of Jackson
a free trader an ex rebel
and one who upholds States
Rights by Harrison a
Republican President was

but little less the negro
should be protected and al-
lowed the right of a free
citizen and the Republican
party should work to that
interest. Why not colonize the
negroes in Indiana or Illinois
or some where so that we could
get the benefit of their votes
They would also be a great help
in redeeming Kansas and
I am sure we could use lots
here in Indiana about elect-
ion times if they colonize in
the west they would help
build up and improve the
great West also the Republican
Party for if the Democrats
are going to control the South
by a million suppressed
votes we should do some
thing to make a solid North.
Long live the By-Tander Harry Law
Franklin
Ind.
