NEW YORK, March 27/93 189

Miss Aimee L. Tourgee,

#1424 Master St., Phila. Penna.

Dear Madam:-

Yours of the 26th. is at hand. I am much obliged for the clipping.

I do not think it is going to be any disadvantage if the book is not ready until about the first of June, the time that our travellers start on the road. We do want, however, to get all the matter before us as soon as possible, so that we may not be too much hurried in the manufacture of the book. I shall send your Father to-day some specimen pages of type for him to select from, and then as soon as the manuscript is completed will have the type set up in galleys and the illustrations inserted after it is made up in pages. Of course I do not want to have the book set up until the illustrations are somewhere near completed.

Yours very respectfully,
