

Crawford Ills April 8th 1893.

Judge A. W. Douze
Mayville N.Y.

My Dear Sir:

No doubt long before this time, you have read of the Verdict in my case against the "Jim Crow" Car Law. I had a just Judge and an honest Jury.

I am satisfied at the outcome and feel that I can secure Justice in the North if I cannot in the South.

I did intend to write the case up in full for the plaindealer but I am afraid I am receiving most too much notoriety for my business. So I shall refrain from saying anything in a public way but leave that for others to do.

It hardly think the P.C. Co will appeal the case, because all the evidence and the law is against them. I read your notes in the enter a clear this morning and could not help from laughing when I read that statement about the treatment colored people receive.

on Southern P.R. No doubt some person deliberately told that lies for the sole purpose to mislead people of the North.

The Jim Crow Car Law of the South is a disgrace to our American Civilization as well as to our pretended Christianity and I for one, God being my helper, fully intend to do a hole in it wherever and whenever I can. Any P.R. that ever puts my wife or children in a human pig pen when they hold first class tickets, will certainly have to answer for the same. Be sure and see the My Age one week from today.

Trusting you are well
I am yours very truly
M W Caldwell
