Dear Sir

The enclosed clipping is from the Memphis Tennessian and indicates that friend Ingalls has changed front somewhat on the Southern Question. I am much interested in your writings in the I. O. and have read with care all your books. I am in full accord and sympathy with you in regard to the treatment of the colored people of the South, and hope yet that the eyes of the American people may yet be opened to this enormous crime against the colored people.

Very Truly Yours
P. R. Bailey
