Lansing, Mich. April 25 1893

Hon Albion W. Tourge  
Mayville NY

My Dear Sir  
in consequence of the excited and  
disturbed state of feeling in regard  
to the financial situation, which has  
disturbed our people during  
this last week & some other things.  
I have deemed it best for the  
present to postpone the lecture  
to sometime in the future.

I hope however to have the pleasure of  
having you deliver the lecture to our people  
at no distant day, for I think the subject  
matter of the lecture is one that ought  
to interest all thoughtful people in  
our Land

Yours  
John Robson
