

Some of the members of the
Board will be present I think
I have some of the same people who
we can rely on to see that all our
relations with the rest of the world
will be as for ever unimpeded, untroubled
as in the past, and we will be
in a position to meet them with the
most able vigour. I have been doing
in the Assembly & ready at all times
to meet each member of the Commission
in order to explain to them the
The relation of our policy to the
war. The matter of the

It is understood
we have present I think
The meeting will have
been as satisfactory as
possible under existing
conditions.
The Commission is in
my opinion, at least, there
is at least one who is so
satisfied that it is quite
difficult to complete
any arrangement with
it.
It is also authorized
to complete its business;
in the same manner,
and we should be entirely
satisfied with the result.

meeting, the Y. W. C. A. and I were with the
great thing - some can provide
the way for the city way of support
and had on the 10th
and directly forward the amount - the
year of the year before I had had year
and had more dignified and better
organization. And those who come and
bring their money are the ones almost
more interested. Such as are not
home at a formal dinner and will
not attend - not so - mostly those
who are - picnic were really there
was no reason to formalize - and the

the look more like the
auditorium and let
each take charge of her
own entertainment; this
latter view is possible
(on the 10th) impossible
at the Assembly because
this Civic Day - one of
the "Great Days" there.
The basket picnic seems
to be favored by Mrs. Bir-
chman because some
who did not attend the
picnic could come and
bring their children to a
picnic.

The Parker House cannot
be had - or at least the
Pioneer grounds the 10th
on account of a ~~fund~~ fundance.

asked a contribution
points - either to the way
of a cottage.

asked my respect to the
committee of the Board
Lindeman to tell me which
place she preferred a
cottage to be erected. She
then wrote me a letter of
reply for the Indian people
Lindeman that in might
make some change in their
plans.

He says he thinks
Silver Lake is a better place
for that the moment it
is abroad the Lindeman
provision - such as the
project for a cottage and the

stopped at Silver Lake about it.
Of course we - you and I
stand all night or will
when we are in the chair
about the final decision
and told Mr Vincent
that it was - that it
was more than likely
that Silver Lake would
be chosen - that moment
was decided - that Silver
Lake was near the center of
the country from which
the patronage of the school
was derived.

As if a cottage is built
at Silver Lake the
is understood to be

return you wrote to me of the amount
I was to pay to you by reply -
"I have written here - V. Take - and it
will be there."

"You know I had to oppose the collapse.
Days are thin to him in office & it is much
wonder to raise \$2000.00 - (the amount
required by authorities at Silver Lake
if they do not do the amount) to be put
into the building."

"Mrs. Patton & Jane Credale will
no doubt settle the matter a time

course to you - as a notice
done the business as
each of business &
courtesy - not from a
point of personal
interest or judgment.
I told Mrs B - if she
said that in the same
manner before I went to
C - I should have done
nothing about the matter.
She replied that she
thought it would be
"I want if we could go
there, but she thought we
could not go there unitedly
and it would take her too far
away." If you remember I

out place of tranquility in
the best practicable
manner; then will commu-
nicate with you.

The program of course
cannot be arranged
until you know what
they settle upon.

Mrs. Cairn Bristol
Robinson was appointed
last mistress last year.
Do you expect her to attend
to the matter of trusts?

If possible you will
have to write to her about it.
I have found what is left
of my name to be seldom
done by anyone. I expect
to be quite occupied from
now on - and shall have very
little time to devote to it.

this matter.

If it were possible
to see you I could express
what I have no doubt
very fully accomplished
longer.

I am yet at Cambridge
and expect to remain for
a week or two days yet, to
be assured of my father's
strength & may return
home and enter into the
pleasures(?) of Spring
Anniversary.

With me dear from
you. Lovingly,

audibly is expected that Mrs
Weeks would be willing
to come to lecture for
nothing. & hardly think
Mrs B - takes this into
consideration.
