Dear Sir, I am a subscriber & reader of the "Weekly Post & Courier" and the most interesting reading for me is found in "The by-stander: a story." And these lines are written for the purpose of congratulating you for the very able manner in which you criticized President Harrison's appointment of a Southern Democrat to fill so important a judicial office as Judge of the Supreme Court.

I also heartily endorse the "By-stander, a story" on the Texas-Davis and other Southern Negro burnings.

• and much pleased with the  
Idea advanced as to the cause  
of the ill treatment, whipping  
murder, and other abuse unjustly  
practiced by the white Democracy  
of the South toward the col-  
-ored People and their friends.

The writer wishes to know whether you  
think the signs of our times, Point  
strongest toward a preparation  
for the withering in of the "Melini-  
-um," with the "Lamb outside the  
Lion," or whether we are not giv-  
-ing stronger evidence of a repi-  
-tion of History, favoring in  
many respects of the Dark Ages.

The writer claims to be a Repub-  
-lican of the true Blue Parti-  
-san style an old time Whig  
voted for Gen. Wm. Henry Harri-  
-son in 40. & subsequently for  
all the good Republican; & for  
~~the~~ the Presidential Office.
