Dear Sir:-

We are very favorably impressed with your invention taking the place of rubber tires ^{on} vehicles, etc., but before investing money in the enterprise we desire to see, if possible, the practical workings of same. Mr. Finnegan will leave for the East in about ten days, and we would ask of you to kindly prepare models and attach same to ~~a~~ ^a sulky, or if possible a four-wheeled vehicle in order that he may see it working. If the test proves satisfactory, we will then immediately take the matter up and perfect arrangements for the organization of the company.

Very sincerely yours,

Finnegan & Corrigan
