Columbus Miss May 21/89

Alfred Young Esq
Mayville N.Y. N. Y.

I have just been reading
you decried of the present outlook for the people
politically & financially, and the aprioric reasoning from
Cause to effect - few men possess the gift to analyze the
causes to make plain natural sequences, capable of
comprehension by common minds like you - the Clashes
of the industrial is but a forerunner of what is in
store of calamity - If Democracy will only make
good all they promise to get in power - and I
am pleased at your placing at the top of causes a
restricted ballot & minority rule - Now the first
thing they propose to do when Congress is in
next the Four Civil - and a Summary of my
advice as a Committee on Rules will be it put
through - Let me say to you if you can read and
if not may be you will not understand the Constitution
to be ordered aside & some autocrats - as to
these other matters - The Grand Confederacy & Early
Shaken by the Success - as plans for this is a
lot of prospect in the future - With Justice & Equality
among men made to place us on a Secure (or so)
basis. With all these things in prospect, it
is nothing, as in comparison to the Loss of
the Liberty of the people - & the breaking down
of the Sacredness of the ballot & disturbed elections

mercenary and seems to be seizing hold of the
people like of old Rome - and in the evening
they are willing to see even the sanctity of
the Sabbath in the hope of making a few more
shillings. The tendency & trend of our times
seems in the wrong direction - and the
sentiment "from the water tower" - should
proclaim alarm - Eternal vigilance is the
price of liberty - and the cause you have set
on foot is a mighty charge with a banner
that shall be borne - both the minor up the
with nation of the organized political fraud
& humbug - and allow them to put a stamp
on their heinous features. You are well with
to provide the picture, or in various extracts
of truthful news - if you can find time to
take up these extracts from the paper I sent
you and enlighten the civilization - that now
the Prigade is trying to sustain - since the
Chicken is coming home to roost. It will
add a new splash to the purity of slavery.
It was funny the surprise to them to find
Barker had come to find for law & order -
that malignant nation of cast people - that have
been as a slave but not as a free man. Will
you be indicated without blood for the
many unjustices now practiced I doubt
no Christian can possibly sit in the domicile
of a country like the one - getting to your country
