ACADEMIC.

Erie, Penn., June 12, 1893.

My friend,

Miss Kilbourne,

The enclosed circular speaks for itself. Do you think we could make a profitable trip to Mayville?

This entertainment, suggested by the 'Christian Endeavor' society of Park Church, given in the Tabernacle for the benefit of 'Harry Burdick', is being given in Mayville, Nanticoke, Island, Albion & Cambridge, may be given twice in Cambridge) and we should like very much to take the trip to the head of the lake, if we can manage it.

Please let me know what you think of it.

Very respectfully yours -

George A. Willey.

World's Fair

by Calcium Light

WITH WAR SONGS AND SCENERY.

Rev. B. H. HAYDEN, Tabernacle, Erie, Pa.

Mr. HARRY BURLEIGH, Bass Soloist, Erie, Pa.

Prof. GEO. A. WILLEY, Erie Academy.

THIS ENTERTAINMENT comprises over sixty beautiful views of the "World's Fair at Chicago," now in progress. Perhaps the only opportunity of a lifetime to see this wonder of the nineteenth century. Complete in every detail, including also views of the most prominent and most charming portions of the wonderful city of Chicago, all interspersed with vocal music; also illustrated by scenes from the lantern.

Rev. MR. HAYDEN, Pastor of the Tabernacle, is the well-known traveler in Palestine and the East, and has spent nearly three weeks in Chicago preparing for this entertainment. He has also a Stereopticon Lecture of his travels in the Holy Land, and parties who desire can have this lecture on the same terms as the "World's Fair," either on Sunday evening or other convenient date.

Mr. HARRY BURLEIGH sings by permission of the National Conservatory of Music of New York City.

PROF. WILLEY, who will operate the lantern, is the principal of that time-honored institution, Erie Academy.

THE WORLD'S FAIR LECTURE.

"The World's Fair by Calcium Light," given last evening at the Tabernacle by Rev. B. H. Hayden and Prof. Geo. A. Willey, was a success in every respect. The stereopticon views were superb, and just enough was said of each to give a comprehensive conception of what it signified and of what may be seen at the fair. It was well calculated to prepare those contemplating the visit to the fair, and to enable those who may not go almost to see it as if on the grounds and in the presence of the mammoth buildings and their charming surroundings, or on the inside of the buildings and examining the wonderful products of the nations of the earth.—ERIE DAILY TIMES, June 1, 1893.

TERMS.

Parties making the engagement to furnish place and attend to local advertising, and receive from one-fifth to one-third gross receipts. The company to furnish tickets and small bills for general distribution. For further particulars address

REV. B. H. HAYDEN, or
PROF. GEO. A. WILLEY,

Erie, Pa.
