Battle Creek, Mich., 13 June 1893

Dear Sir, I had hoped to  
present this note personally,  
but find this to be impossible  
and I therefore mail, as  
you may like to hear  
from Miss Dwyer even  
in this way. I take a  
warm interest in the  
welfare of your "colored"  
people and am glad to  
have a number of  
friends among them.

Whenever opportunity  
occurs I shall be glad  
to help in England by the  
publication of facts on  
their condition. Yours truly  
William E. A. Axon
