Dear Sir:

I venture to send you, by this mail,
a copy of "Inland Archited." containing a
contribution of the writers. I send it
not because of any supposed intrinsic
value; but because that in the battle
you are waging for human rights and
liberty's my contribution constitutes evidence
of a certain kind.

Some time it may be of a better value
to you in a statistical way to know of
any new avowal or recognition opened up
to or accorded the race -

With highest respects

Wm. A. Hays
