

7070

Peter Henderson & Co

35 Cortlandt St - New York

Gentlemen:

I have one acre of ground,  
now in perfect condition which I wish  
to put down as permanent meadow  
as an experiment.

The soil is a rich, heavy clay,  
but will bear heavy seeding as the  
winters are severe.

~~Send~~ I have used your lawn  
grass and am inclined to try  
your selections of seeds. Having only  
your flower catalogue I am not  
sure as to prices. I send draft for

\$10. Send me such mixture as you  
think best - also the clovers needed  
to go with it, by American Express please.

If the amount sent is more than is  
required send me the balance in  
seeds of the hares and water lilies, as I have  
a pool & wish to stock. Send also your

pamphlet on their culture.

Yours respectfully  
Albin W. Sawyer
