NEW YORK, July 28, 1893.

Hon. Albion W. Tourgee,

Dear Sir:-

After careful study of the railroad problem and the various proposed solutions of it, we are inclined to believe that the plan of government control, coupled with free competition, as outlined in the enclosed leaflet, would be or should be acceptable to a large number of both advocates of government ownership and advocates of private enterprise. Kindly favor us with your opinion, to the extent of not more than 300 words, as to the possibility and justice of the plan set forth in the enclosed leaflet.

Thanking you in advance,

Respectfully,

Editor The Voice.
